ESI: Introducing free Microsoft Official Practice Tests

To help you prepare for your Microsoft Certification exams, the Enterprise Skills Initiative (ESI) offers you—at no charge—Microsoft Official Practice Tests for each of the exams that we cover in our [Exam Prep sessions](#). These practice tests are written by subject matter experts and are designed to help ensure that all crucial exam objectives are covered in depth.

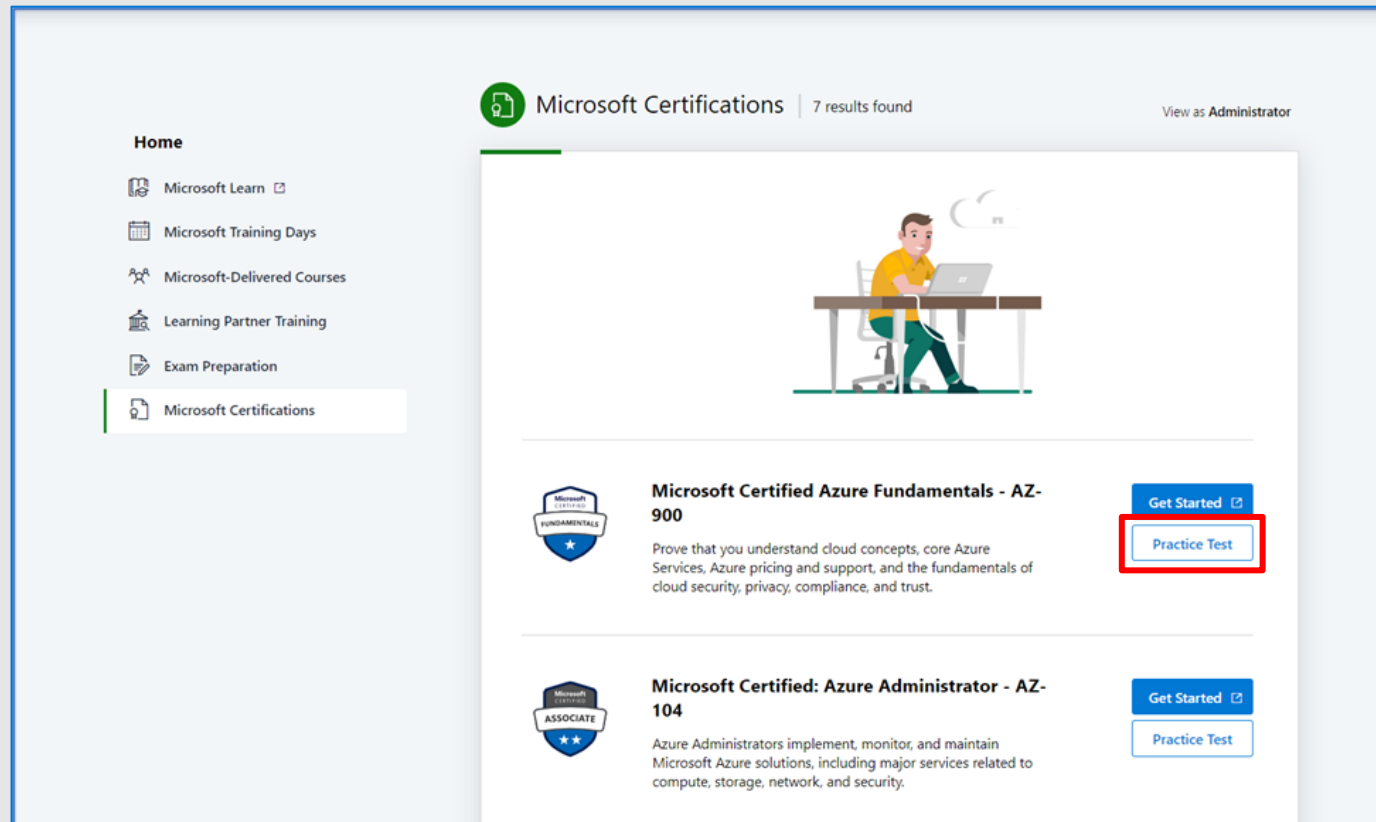

Although the Exam Prep sessions aren't required before taking the tests, we highly recommend them because they're very useful for building a solid foundation and skilling up—especially in combination with the practice tests.
