

Tools & Resources	MCT Software & Services	MCTs are given access to Microsoft technologies to help them deliver training and expand their technical expertise. This benefit can be used to support development of demo environments needed for instruction. Active MCTs can claim this benefit at https://my.visualstudio.com/ .
	Azure Pass Program	MCTs may request one Azure Pass per week to support their expertise and self learning on Azure technologies. This service is provided for trainer readiness, not course delivery. Azure Passes can only be obtained for approved courses which utilize Azure Passes in the lab content.
	Microsoft Labs	MCTs can access Microsoft Labs to practice the lab experiences integrated into course content. This lab environment is intended to support trainer readiness as an MCT prepares to deliver a course with lab components.
	Learning Download Center	The Learning Download Center provides access to all MOC training resources, including PowerPoint decks and Trainer Prep Guides.
	MCT Lounge	MCTs use a secured community platform to access resources and communications from Microsoft.
Exam Discounts	Microsoft Exams	MCTs receive a 75% discount when registering for Microsoft Certified Professional exams.
	Beta Exams	MCTs may be invited to receive a 100% discount on Beta Exam. MCTs will be notified of Beta Exam opportunities via MCT Lounge announcements when they become available.
	Free MOS Exam	MCTs may receive 1 free MOS exam voucher each year by submitting a request through the MOS voucher form .
Community & Support	MCT Lounge	Active MCTs and MCT Alumni have access to MCT Lounge on Microsoft Tech Community. This MCT Community space provides program information, announcements, course updates, delivery resources, and MCT community forums.
	MCT Professional Development Resources	MCT Lounge also provides access to a wealth of professional development resources, trainer workshops, and Onboarding supports for new MCTs. Resource libraries offer technical skilling offerings, instructional tools, and Microsoft product insights.
